

Multi-Sales Tool Development Benefits in Time and Cost

In today's competitive business climate, it's getting harder to get ahead. You need to make every dollar count - and minute too. You need to get the most from your investments. At AngelCore, our goal is to maximize the sales ROI for our Customers. These companies are some of the fastest-growing in the world and include Microsoft, HP, Xerox, Epson, BP, US Bank, SAP, USDA and American Airlines. We do this by increasing sales, decreasing costs, reducing risks and saving you time. In the end you get better results and at a low price. Taking care of our Customers for less cost... reaching more people with a better message. That's what we do. Here are some of the ways our Clients are increasing sales while reducing their overall marketing costs.

Experience that Minimizes Risks and Costs

Don't wing it. We have years of experience helping our Customers achieve their goals.

- We know the tips and tricks, ins and outs.
- We will help eliminate the risks and pitfalls that can sabotage your results.

Anyone can make a sales video. We make Results.

We've made nearly 5000 sales videos. One thing we've learned is that their success is not a guarantee. Our goal isn't to make videos. It is to deliver tools that work for you. We do this with:

- tools that work and
- a superior sales process.

Benefits of Developing Multiple Sales Tools at One Time

Increase Sales

It starts with having a "Sales Strategist" who works with you to see the big picture, such as:

- Integrating all your sales tools so they can benefit and support each other.
- Delivering our tools in different formats so that they can be used (1) many ways, (2) throughout the different stages in your sales process and (3) by others in your company.

Lower Production Costs

There is a great cost savings when you produce a few sales tools at one time. We will spend less time and effort for:

- Strategy, orientation and planning
- Branding, positioning and messaging
- Creating designs, repairing graphics, and so on.

Time Savings for You

You'll save considerable time compared to creating these tools separately. It takes time to execute a successful advertising and sales campaign. And with each additional service, the savings are even greater. You'll spend less time:

- Explaining your company and product details
- Describing your challenges and sales process
- Locating and sending files, specs, photos, graphics
- Reviewing messaging, copywriting, designs, etc.

Benefits of Having an Integrated Sales Process

Efficient Sales Process

Together, we'll build a sales process around your specific needs.

- Don't spend valuable time and money where it's not needed. Instead, strengthen the areas of your sales process that are weak.
- Then use your time more effectively by using the right sales tool at the right time.

Superior Messaging

We'll develop messaging that's speaks to your Customers' pain crafted from our proven story-telling model.

- Messaging that is targeted to your different market segments and different Customer needs.
- Messaging that helps you educate and connect with your audience.

Focus on Results

You'll work with a team that understands the purpose of each tool and how it fits into your specific process. Our goal is to produce results by focusing on:

- Leading your Customers to the next stage in your process.
- Special offers, incentives and deadlines to target specific segments.
- Reaching markets that you were unable to reach before.
